DISTILLERIES

Du Nord (*Minneapolis, MN*)

In 2013, Chris Montana had a crazy idea to start a distillery in the middle of the city he loved. The goal was to start a family business that would bring together Shanelle Montana's rural upbringing on a Cold Spring, MN farm and Chris' experience growing up in Minneapolis. The result is Du Nord Craft Spirits, a scrappy distillery born of rural practicality and city vibe. Since 2013, the Du Nord family has grown from those small beginnings; what we do today is a result of the collective efforts of a group of people who bring their unique talents to the Du Nord team. Du Nord is committed to diversifying the craft alcohol community and actively recruits the underrepresented communities of women and racial minorities to join the Du Nord family.

Far North (*Hallock, MN*)

The northernmost distillery in the contiguous United States, Minnesota's Far North Spirits is one of a handful of authentic field-to-glass estate producers of small-batch, craft-distilled spirits. Inspired by a heritage of independence, hardihood and agricultural abundance, founders Michael Swanson and Cheri Reese fled the corporate world to their fourth-generation family farm. Here, they hand select, plant and harvest all non-GMO grains. They also mill, distill and bottle all spirits entirely from start to finish.

Panther (*Osakis, MN*)

In 2011 Adrian Panther set out with a simple idea: bring great spirits to Minnesota. Adrian has always been an entrepreneur and a whiskey aficionado. He decided to team up with the most talented individual he knew to distill his spirits, Brett Grinager. Brett learned the art of distilling from some of the most well respected distillers in the United States and brings a level of experience, ingenuity and creativity that cannot be matched. We set up our distillery where we were—in the heart of pristine lake country in Osakis, Minnesota. All we'd ever need to make great tasting whiskey is right in our backyard. Everything here is exposed to all four seasons and our spirits are no exception. Cold aging is one phase our barrels go through every year and it is one characteristic that makes our spirits unique. In Minnesota we don't fear the cold, we embrace it and use it to our advantage.

Tattersall (*Minneapolis, MN*)

Founded in 2015 by friends Dan Oskey, Jon and Michelle Kreidler in Northeast Minneapolis. We believe in crafting the absolute best — in life, at the still and behind the bar. Passionate about taste. Committed to quality. Uncompromising every step of the way. Life is too short for anything less. Our spirits and liqueurs are the result of research, experimentation and dedication to the finest ingredients available.

Vikre (*Duluth, MN*)

The nature and culture of Northern Minnesota are our inspiration and terroir. The pristine beauty of Lake Superior, the North Woods and the Boundary Waters are distilled in the flavor of everything we make. It's difficult to imagine a more perfect place for making distilled spirits. We craft superior spirits that thoughtfully blend tradition and innovation. We forage the Northwoods for wild botanicals; we use local and organic grains, handcrafted Minnesota oak barrels, and the clean, cold water of Lake Superior. Distilling the essence of this great watershed into the finest spirits possible is our passion. Doing so in a way that cares for this special place is our vocation.
